

ISO 45001:2018 Clause- by-clause Interpretation

Occupational Health and Safety Management System

Table of Contents

1	INTRODUCTION	5
2	KEY CHANGES	6
3	FACTORS THAT AFFECT SAFETY CULTURES	8
3.1	COMMITMENTS TO HEALTH AND SAFETY	8
3.2	AWARENESS AND ADAPTABILITY	9
3.3	BEHAVIOUR WITH RESPECT TO HEALTH AND SAFETY	9
3.4	HEALTH AND SAFETY INFORMATION	10
3.5	MUTUAL TRUST AND RESPECT	10
3.6	MONITORING SAFETY CULTURE	10
3.7	HEALTH AND SAFETY REPORTING	11
4	CONTEXT OF THE ORGANIZATION	12
4.1	ORGANIZATIONAL CONTEXT	12
	Step 1: Identifying Internal issues	13
	Step 2: Identifying External issues	14
4.2	INTERESTED PARTIES	16
4.3	DETERMINING SCOPE	17
4.4	OH&S MANAGEMENT SYSTEM	18
5	LEADERSHIP AND WORKER PARTICIPATION	21
5.1	LEADERSHIP AND COMMITMENT	21
5.2	HEALTH AND SAFETY POLICY	22
5.3	ORGANIZATIONAL ROLES, RESPONSIBILITIES AND AUTHORITIES	22
5.3.1	Top Management	23
5.3.2	Health & Safety Manager	24
5.3.3	Health & Safety Representatives	24
5.3.4	Health & Safety Advisors	25
5.3.5	Managers & Supervisors	25
5.3.6	Workers & Contractors	25
5.4	CONSULTATION AND PARTICIPATION OF WORKERS	26
6	PLANNING	28
6.1	ACTIONS TO ADDRESS RISKS AND OPPORTUNITIES	28
6.1.1	General	28
	Step 1: Risk Evaluation Process: Planning	30
	Step 2: Risk Evaluation Process: Identification	31
	Step 3: Risk Evaluation Process: Assessment	31
	Step 4: Risk Evaluation Process: Response	32
	Step 5: Risk Evaluation Process: Review	32
	Step 6: Risk Evaluation Process: Reporting	32
	Step 7: Risk Evaluation Process: Monitoring	32

6.1.2	Hazard identification and assessment of risks and opportunities	32
6.1.2.1	Hazard identification	32
	Step 1: Look for hazards	34
	Step 2: Decide who might be harmed and how	34
	Step 3: Evaluate the risks and decide whether current controls are adequate	34
	Step 4: Record your findings	34
	Step 5: Review risk assessments and revise where necessary	34
6.1.2.2	Assessment of OH&S risks	34
6.1.2.3	Assessment of OH&S opportunities	36
6.1.3	Legal and other requirements	37
	Step 1: Identify Relevant Health and Safety Legislation	37
	Step 2: Evaluate Legal Requirements Arising from Legislation	38
	Step 3: Documenting Legal Requirements	38
	Step 4: Determine Applicability of Other Requirements	39
	Step 5: Review the Legal Requirements Register	40
	Step 6: Monitor Compliance	40
6.1.4	Planning action	40
6.2	OH&S OBJECTIVES AND PLANNING TO ACHIEVE THEM	40
6.2.1	OH&S objectives	40
6.2.2	Planning to achieve objectives	43
	Step 1: Selecting Performance Targets and Indicators	44
	Step 2: Selecting Leading Performance Indicators	45
	Step 3: Selecting Lagging Performance Indicators	45
	Step 4: Selecting Goals and Measurements	46
7	SUPPORT	48
7.1	RESOURCES	48
7.2	COMPETENCE	48
7.3	AWARENESS	49
7.4	COMMUNICATION	50
	7.4.1 General	50
	7.4.2 Internal	51
	7.4.3 External	53
7.5	DOCUMENTED INFORMATION	54
	7.5.1 General	54
	7.5.2 Creating and updating	55
	7.5.3 Controls of documented information	55
8	OPERATION	57
8.1	OPERATIONAL PLANNING AND CONTROL	57
	8.1.1 General	57
	8.1.2 Eliminating hazards and reducing risks	57
	8.1.3 Management of change	58

8.1.4	Procurement.....	59
8.1.4.1	General.....	59
8.1.4.2	Contractors.....	60
8.1.4.3	Outsourcing.....	60
8.2	EMERGENCY SITUATIONS.....	60
	Step 1: Identification of Potential Emergencies.....	61
	Step 2: Emergency Response Plans.....	62
	Step 3: Emergency Response Review.....	62
9	PERFORMANCE EVALUATION	63
9.1	MONITORING, MEASUREMENT, ANALYSIS AND PERFORMANCE EVALUATION.....	63
9.1.1	General.....	63
	Measurement Techniques.....	64
	Active Monitoring.....	64
	Workplace Inspections.....	65
	Statutory Inspections.....	68
	Employee Surveys.....	69
	Health Monitoring.....	69
	Safety Tours.....	69
	Workplace Hazard Spotting.....	69
	Safety Samples.....	69
	Document Reviews.....	69
	Behavioural Observation.....	70
	Calibrating Measurement Devices.....	70
	Reactive Monitoring.....	70
	Analysing & Evaluating Performance Data.....	71
9.1.2	Evaluation of Compliance.....	72
9.2	INTERNAL AUDIT.....	72
9.2.1	General.....	72
9.2.2	Internal audit programme.....	73
9.3	MANAGEMENT REVIEW.....	75
10	IMPROVEMENT	78
10.1	GENERAL.....	78
10.2	INCIDENT, NONCONFORMITY AND CORRECTIVE ACTION.....	78
10.2.1	Nonconformity and corrective action.....	78
	Step 1: Define the problem and select interim containment action.....	79
	Step 2: Identify the root-cause.....	80
	Step 3: Develop root-cause theories.....	83
	Step 4: Implement and validate permanent corrective actions.....	85
	Step 5: Prevent recurrence.....	85
10.2.2	Incident investigation.....	86
	Step 1: Preserve and document the scene.....	87

4 Context of the organization

4.1 Organizational context

Clause 4.1 of ISO 45001:2018 requires the provision of a high-level understanding of key issues that can affect OH&S both positively and negatively within the organization. Using this information will help develop an understanding of internal and external issues and the interaction of activities to help plan and develop controls within the system.

What are internal and external issues? There are many internal and external issues that affect, or have the potential to affect, the OH&S management system. It is imperative these are identified so that there is clear understanding and appreciation of the operating environment.

Internal and external issues are circumstances, characteristics and changes which can positively or negatively influence the OH&S management system. 'Annex A' of ISO 45001:2018 has been developed to provide examples of internal and external issues.

Use the *Context & Interested Parties Matrix* to document any external and internal issues relevant to your organization's operational purpose and strategic direction that may affect its ability to achieve the intended result of the management system.

To assess whether your organization has a high-level, conceptual understanding of its internal and external issues that affect it, either positively or negatively, its ability to achieve the intended outcomes, you should describe the processes used by your organization to identify internal and external issues and make reference to all objective evidence, including examples of these issues. Examples of organizational issues might include:

1. Health and safety conditions capable of affecting or being affected by the organization;
2. External: cultural, social, political, regulatory, financial, economic, natural and competitive issues, whether international, national, regional or local;
3. Internal: organization's activities, products, services, strategic direction and capabilities (people, knowledge, processes, systems).

You will need to determine and understand the various health and safety conditions, internal and external issues, typically experienced in your type of organization that can have positive or negative impacts.

The standards do not specify that these internal and external issues, or their monitoring and review, be documented, so there might not necessarily be lists of issues or records of reviews. However, information can be obtained via interviews with relevant Top management in relation to your organization's context and its strategic direction, the identified issues and conditions, and how these may affect the intended outcomes of the health and safety management system.

Collate evidence to provide assurance that your organization is regularly, or as necessary, reviewing and updating its external and internal issues. Although there is no requirement for documented information to define the context of the organization, your organization will find it helpful to retain the types of documented information listed below to help demonstrate compliance:

1. Business plans and strategy reviews;
2. Competitor analysis;
3. Economic reports from business sectors or consultant's reports;

4. SWOT analysis for internal issues;
5. PESTLE analysis for external issues;
6. List of external and internal OH&S Management System issues and conditions.
7. OH&S Management System action plans and objectives;
8. Annual reports;
9. Minutes of meetings (Management review and, e.g.; Safety Committee Meeting minutes);
10. Process maps, tables, spreadsheets, mind mapping diagrams.

Reviewing your organization's context could include interviews with senior management, questionnaires, surveys and research. Cross-functional input is essential for the specific expertise required to identify the full breadth of issues, such as finance, training, human resources, commercial, engineering and design, etc. Not only will this ensure a broader appreciation of the context but also wider engagement, particularly with those functions not previously involved with the OH&S Management System.

Using the **SWOT** and **PESTLE** analysis templates, undertake an analysis of internal and external issues. This provides clear evidence that a comprehensive process has been carried out to understand the context within which your organization operates. This activity will also help to determine the scope of OH&S management system as required under Clause 4.3 and 9.3.

With the information that is gathered during discussions at all levels of the organization to determine context, it is recommended this information is placed into a report. The benefit of this is it provides a cohesive explanation and a good reference to support present and future business strategy.

Step 1: Identifying Internal issues

Using the **SWOT Analysis Template** identify and analyze your organization's strengths, weaknesses, opportunities and threats. Below are typical examples, however each issue will be focused on the individual organization:

Strengths are characteristics of our organization that allow operation more efficiently and effectively than competitors. We consider:

1. What does our organization do well?
2. What advantages does our business have over other internal sections or external organizations, including competitors?
3. What makes our organization different from competitors?

Weaknesses are areas that are recognized as needing improvement. We consider:

1. What can be done better?
2. What causes problems or complaints (information from root-cause analysis)?
3. Which capabilities need modifying, strengthening or divesting for the future?

Opportunities are trends, circumstances or business opportunities that may be taken advantage of. We consider:

1. What are the changes in technology or markets?
2. What local and global events may be useful?
3. What are the changes in customer/societal values?
